GENERAL REVIEW.

MR. JOHN A. BUNNELL,
President Board of Trade
of the City of Chicago.

My Dear Sir:

In submitting herewith the Fifty-Second Annual Report of the Board of Trade of the City of Chicago, that for the year 1909, I beg to extend to you my congratulations upon the most gratifying results of your administration. The rules of the association enacted to facilitate the economical and unhindered marketing of the chief products of the wonderful Mississippi Valley, have been faithfully complied with, and the most enlightened principles of commerce, which lie at the basis of this Exchange, and to which all our rules and regulations must conform, even to the minutest particular, have been upheld. The Board of Trade stands today as a conspicuous exemplar of the most advanced mercantile ethics. There has been no hesitation in keeping constantly in view those uncompromising standards, in all the deliberations before the tribunals of this great commercial body: This, in no small degree, you will permit me to observe, has been owing to your pronounced loyalty, and your tactful advocacy. Those standards constituting the very fabric of the association, and adopted at the birth of the organization by its high-minded and sagacious founders, are set forth, in concrete and terse phrase, as follows: The objects of the Association are; To maintain a Commercial Exchange; to promote uniformity in the customs and usages of merchants; to inculcate the principles of justice and equity in trade; to facilitate the speedy adjustment of business disputes; to acquire and to disseminate valuable and economic information; and generally, to secure to its members the benefits of co-operation in the furtherance of their legitimate pursuits. Where, in all the annals of mercantile literature, or jurisprudence can be found a more compact and excellent declaration of principles and practice, in the conduct of business, and in the promotion of commerce in its broadest and most lofty conception? After an experience of more than half a century it is impossible to change it without marring it. By an unswerving adherence to these declarations and directions, the Board will commend itself more and more to the respect of the market-places of the world;

to all state legislatures; to the public; and to the Congress of the United States. This Exchange derives its importance and its sustaining power chiefly from the grain crops of the United States, and from the immense number of animals, comprising hogs, sheep, cattle, horses, mules and milch cows on the farms of this resourceful country. Let us look at the volume and value of these crops, and of these animals, as estimated by the United States Department of Agriculture.

The crop of corn aggregated 2,772,376,000 bushels, produced on 108,771,000 acres, valued on the farm at \$1,652,822,000—the largest crop of this cereal ever raised in the United States, save that of 1906, which aggregated 2,927,416,091 bushels, or about 155,000,000 bushels in excess of the crop of the year 1909. The valuation, however, of the 1909 crop was greater than that of any year in the history of agriculture in this, or in any other country. Illinois produced of this cereal, 369,770,000 bushels, grown on 10,300,000 acres, valued on her farms at \$192,280,000, exceeding the quantity, acreage and value of that raised in any other state; next in order came Iowa with 289,800,000 bushels grown on 9,200,000 acres, valued at \$142,002,000. The average yield per acre in Illinois was 35.9 bushels, and in Iowa 31.5 bushels. The state showing the largest yield per acre is Connecticut, and was 41 bushels. The average yield per acre of the entire crop was 25.5 bushels, which is less than that of the previous year. The largest recorded yield per acre of this crop in the United States is 30.3 bushels, and was of the crop of 1906; its farm valuation, however, was in round numbers, \$500,000,000 less than the valuation of the crop of 1909. The next state in the order of production is Missouri, with 213,840,000 bushels, raised on 8,100,000 acres, valued on the farms at \$126,166,000. Then, in order of production, came Indiana, Nebraska, Kansas, Ohio, Texas, Kentucky, Oklahoma. This magnificent grain grows in every state in the Union, defying cold and heat, drought and flood; it is characteristically American—doing its best under all circumstances and triumphing over unfavorable conditions. There is no crop so responsive to care and intelligent cultivation, or one that so abundantly rewards the labor and intelligent fidelity of the husbandman.

The crop of wheat, comprising winter and spring wheat, aggregated 737,189,000 bushels, produced on 46,723,000 acres, valued at \$730,046,000. The crop of winter wheat exceeded that of any year, with the exception of the years 1905 and 1901, aggregating 446,366,000 bushels, grown on 28,330,000 acres, valued at \$459,154,000. The average yield per acre of this crop was 15.8 bushels; its valuation was considerably in excess of that of any year. The state producing the largest crop of this cereal is Kansas, turning out 85,478,000 bushels, adding to the wealth of that great central and expanding Commonwealth \$82,059,000. The next

state in the order of production of winter wheat is Nebraska, with 45,590,000 bushels, valued at \$46,575,000, with an average acreage yield of 19.4 bushels, or a little more than 5 bushels in excess of that of Kansas. Next follow in the order of their production, the states of Indiana, Illinois, Missouri, Pennsylvania, Ohio and Washington—the latter with 20,124,000 bushels, valued at \$18,715,000.

The crop of spring wheat aggregated 290,823,000 bushels, and was the product of 18,393,000 acres; its farm value amounted to \$270,892,000, or about \$64,000,000 in excess of any previous spring wheat crop raised in the United States; so also was its yield per acre larger than that of previous crops, being 15.8 bushels. The lowest recorded yield of this variety of wheat is 12.8 bushels, and was of the crop of 1906. Minnesota heads the list of spring wheat states with 94,080,000 bushels, valued on her farms at \$90,317,000, the product of 5,600,000 acres, showing an average acreage yield of 16.8 bushels. North Dakota with an acreage of 1,000,000 more, produced about 3,300,000 bushels less, valued at \$83,501,000, or about \$6,800,000 less than the Minnesota crop. The average acreage crop of North Dakota was only 13.7 bushels. The state showing the largest yield per acre is Colorado, and was 29.4 bushels; her production, however, was quite small—only 275,000 bushels; the States showing a yield per acre of 26 bushels and over, are Nevada, Montana, Utah, Wyoming and Idaho. On page 194 you will find a statement showing the product and acreage of winter wheat, and also of spring wheat from 1885 to 1909, inclusive.

The crop of oats was a bumper crop, the largest of record, aggregating 1,007,353,000 bushels, the output of 33,204,000 acres, valued on the farm at the enormous sum of \$408,174,000. The yield per acre was 30.3 bushels, the largest since the crop of 1906. The year of greatest acreage yield was 1905, and was 34 bushels.

Illinois turned out of this grain more than any other State, viz.: 159,064,000 bushels, grown on 4,346,000 acres of her alluvial soil, valued at \$60,444,000. The next largest state in the production of oats is Iowa, turning out 116,100,000 bushels, valued at \$40,635,000; and next in the order of production follow the states of Minnesota, with 90,288,000 bushels, Wisconsin, with 79,800,000 bushels, Nebraska with 61,825,000 bushels, Ohio with 56,225,000 bushels, Indiana with 55,510,000 bushels, North Dakota with 49,600,000 bushels, South Dakota with 43,500,000 bushels, Michigan with 43,310,000 bushels, New York with 37,365,000 bushels, Kansas with 27,185,000 bushels, Pennsylvania with 25,948,000 bushels. The state showing the largest yield per acre is Montana, yielding 51.3 bushels; the next is Washington, yielding 49 bushels. The value of the crops in these last named states, showing large acreage yields, is comparatively small. Among the states pro-

ducing large oat crops, Illinois leads the van as to average yield, with 36.6 bushels to the acre.

The crop of barley aggregated 170,284,000 bushels valued at \$93,971,000 grown on 7,011,000 acres, yielding 24.3 bushels to the acre. Its acreage is the largest ever grown in the United States, and with the exception of the crop raised in 1906, the production is the largest. Although the crop of 1907 was about 16,000,000 bushels less than that of 1909, its valuation was about \$8,000,000 greater. Minnesota leads in production, with 31,600,000 bushels, valued at \$14,852,000; California next with 31,270,000 bushels, valued at \$23,140,000; Wisconsin comes next with 24,248,000 bushels, valued at \$13,579,000; North Dakota and South Dakota follow, together turning out 40,637,000 bushels, valued at \$17,873,000.

The crop of rye footed up 32,239,000 bushels, valued at \$23,809,000 and does not, either in volume or value, vary materially from the crops of 1907 and 1908; its average acreage yield for the last five years is quite uniform, being about 16 bushels.

Pennsylvania, Michigan, Wisconsin, New York and Minnesota are the chief rye producing states.

Complete statements of the crops hereinbefore mentioned, issued by the United States Agricultural Department, may be found on pages 174-176. The crops of corn, oats, wheat, barley and rye, aggregated 4,719,441,000 bushels, valued on the farm at \$2,908,822,000.

The crop of hay aggregated 64,938,000 tons—about 6,000,000 tons less than the crop of 1908; its value however, was about \$54,000,000 in excess of the value of the crop of last year, or \$689,345,000. The crop of the largest valuation was that of 1907, which showed a farm valuation of \$743,507,000. We may appropriately include in this portion of my review the crop of Irish potatoes, since it enters largely into our calculations of food supplies. This crop aggregated 376,537,000 bushels, valued at \$206,545,000, and was larger, both in value and production, than ever before dug in this country. The state of New York produced more than any other state, 52,500,000 bushels, valued at \$26,280,000; then, in the order of production came Michigan, Maine, Wisconsin, Pennsylvania, Minnesota, Ohio and Iowa. Adding to the farm valuation of the chief cereals, the valuation of the Hay Crop and of the potato crop, we reach the amount of \$3,804,712,000: thirty-eight hundred and four million, seven hundred and twelve thousand dollars! This total valuation is not only interesting but profoundly instructive to the student of political economy in the relation of that science to the commerce and industries of the United States. It is full of significance, as an actual creation of wealth—a wealth which permeates and invigorates all the channels of trade throughout our domain.

FOREIGN COMMERCE

The value of the exports and imports of the United States for the year ended June 30, 1909, was \$2,974,931,328, showing a decline from that of the preceding year of \$80,183,810.

The imports reached \$1,311,920,224 in value, an increase of \$117,578,432 over that of the preceding year.

The exports amounted in value to \$1,663,011,104, which is \$197,762,242 less than the value of the exports for the preceding year.

The excess in value of exports over imports was \$351,090,880.

The Secretary of Commerce and Labor says: "There was a decline in the imports of nearly all nations in the year under review, but the proportionate share of the United States in the imports of other countries, as a rule, was even greater than in the prosperous year of 1907, which would seem to show that there would be an increased demand for American products with a revival in the trade of foreign countries; providing proper means are taken to place American goods in such markets. Anticipated tariff legislation by Congress had some effect on foreign trade, but imports were larger just after than immediately before the passage of the tariff act of August 5, 1909."

The United States is not so vigilantly and aggressively interested in her export trade as are the principal nations interested in the exportation of their products. We have not as yet addressed ourselves to the promotion of our foreign trade with that intelligent, studious and persistent energy that characterizes the overseas commerce of Germany, France and England.

CONSULAR SERVICE

The subject of consular reform at this time is of almost supreme importance to the mercantile and industrial interests of the United States, for upon the character and efficiency of our consular service depends to a very large extent the growth of our foreign trade. To render that service efficient it should be conducted absolutely upon the **merit system**, without any feature or relic of family or political favoritism. The principle of promotion in filling the higher offices in that service should be without exception observed; moreover, the qualifications for every consular office should be embodied in law and not subject to or made dependent upon executive control. Legislation affecting business interests should be definite, concise, practical, and not lacking the essential element of permanence; and not subject therefore to the vacillations incident to American politics. It should rest upon the **merit system** as upon immovable pillars; upon that basis it would grow stronger and stronger, and in a few years would become so imbedded in

the federal law and so commended by the people as to be beyond almost the possibility of change. Without the strict observance of these principles, the enterprise of our merchants in extending our trade relations with foreign markets would fail of its full and deserved results.

The total value of United States exports for the year ended December 31, 1909, amounted to \$1,700,743,638, and for the previous year, \$1,728,670,188. \$1,377,444,967 of this valuation was carried in foreign steam vessels, and \$26,427,673 in foreign sailing vessels. American steam vessels carried only \$100,791,524, and American sailing vessels, \$5,383,237 of the above total valuation of our exports.

Our exports of corn for the calender year aggregated 36,205,652 bushels, valued at \$25,444,990; of Oats, 1,272,294 bushels valued at \$672,469; of Wheat, 48,489,674 bushels valued at \$50,576,602; of Wheat Flour, 9,687,993 bushels, valued at \$49,952,779.

Our exports of Wheat during the last calender year were 44,289,835 bushels less than during the preceding year, and their valuation \$41,670,625 less. The larger part of our exports of Corn, Wheat and of Wheat Flour was shipped to the United Kingdom.

Our total exports of Cotton, manufactured, for the calendar year aggregated 7,576,153 bales, or 3,895,450,049 pounds, valued at \$461,919,568, as against 8,436,143 bales weighing 4,374,689,412 pounds, valued at \$438,829,110, exported during the year ended December 31, 1908.

The following tables show the percentages of last year's crops of wheat, corn, and oats on hand March 1, 1910, in the principal grain producing states:

The number and value of the animals on the farms are so intimately and vitally related to the general industrial and commercial prosperity, that no intelligent understanding of the financial and commercial affairs of the year can be had without, at least, a resume of this wealth of the country.

The number of horses, mules, milch cows, sheep, other cattle and swine on the farms and ranches of the United States, January 1, 1910, as estimated by the U. S. Department of Agriculture, was 199,241,000, valued on the farm at \$5,138,486,000. Of horses, there were 21,040,000, valued at \$2,276,363,000, or at an average price per head of \$108.19; of mules, 4,123,000, valued at \$494,095,000, or at an average price per head of \$119.84; of milch cows, 21,801,000, valued at \$780,308,000, or at an average price per head of \$35.79; of other cattle 47,279,000, valued at \$917,453,000, or at an average price per head of \$19.41; of sheep, 57,216,000, valued at \$233,664,000, or at an average price per head of \$4.08; of swine, 47,782,000, valued at \$436,603,000, or at an average price per head of \$9.14. In the case of horses, mules, milch cows, and sheep, the number, total valuation, and average price per head, exceeded the corresponding record of any previous year; while the number of other cattle was less than for the years 1907 and 1908, the valuation largely exceeded that of any other year; so also with respect to swine—while the number on the farms was much less than for several years, the valuation was materially in excess of that of any other year.

The greatest number of horses on the farms in any state was in the State of Illinois, aggregating 1,655,000, valued at \$205,220,000; then followed, in order, the states of Iowa, with 1,447,000, valued at \$173,640,000; Texas with 1,369,000, valued at \$99,937,000; Kansas with 1,187,000, valued at \$127,009,000; Nebraska with 1,045,000, valued at \$112,860,000; Missouri with 1,005,000, valued at \$103,515,000,

Texas leads on mules with 702,000, valued at \$69,498,000; then follow Missouri with 344,000; Tennessee with 290,000; Mississippi, with 290,000; Alabama with 253,000; Georgia with 248,000.

The principal dairy states are, in the order of their prominence, New York, Iowa, Wisconsin, Illinois, Pennsylvania, Minnesota; Texas has about the same number of milch cows as Minnesota, but their valuation was about \$3,500,000 less.

The great sheep raising states are, in the order of their importance, Wyoming, Montana, New Mexico, Idaho, Ohio, Utah, Oregon, California, Michigan, Texas and Colorado.

In the production of swine Iowa leads with 6,485,000 head, valued at \$73,280,000, followed by Illinois with 3,772,000 head, valued at \$41,115,000; Texas with 3,205,000, valued at \$21,153,000; Nebraska with 3,201,000, valued at \$35,211,000; Missouri with 2,714,000, valued at \$21,441,000; Indiana with 2,578,000, valued at \$25,780,000; and Ohio with 2,047,000, valued at \$21,903,000.

REAL ESTATE

The Real Estate Committee deemed it prudent to confine its expenditures to such repairs only as were demanded by a proper care of the building and offices.

Revenue derived from rentals, janitor service, electric lights, etc., amounted to \$134,244.61, compared with \$139,263.02 received during the year 1908, and \$136,283 during the year 1907. The total disbursements for the year amounted to \$60,528.39, as compared with \$81,844.27 expended during the year 1908.

WEIGHING DEPARTMENT

During the year 1909 the total quantity of grain weighed, aggregated, approximately, 397,000,000 bushels, comprising 47,000,000 bushels weighed to and from lake craft, and 350,000,000 bushels to and from cars. There were weighed into and out of elevators and industries and at transfer points, 290,210 carloads of grain. Of these 158,611 cars were unloaded into elevators, 124,768 shipped out, and 6,831 transferred from car to car. The Department also weighed 44,026 bags of seed.

The records of the Department show that there was a material decrease in the number of carloads of grain weighed and a consequent reduction

in revenue derived therefrom. The revenue derived for services performed for various railroads was reduced, in consequence of the determined policy of the eastern railroads to diminish operating expenses to the minimum.

The scrutiny of the Department has been very wisely extended to scales and general weighing facilities at country points, eastern and western. This has in cases of complaint received from interior stations resulted in abundantly proving that in such cases the inaccuracies have been traced to defective scales used, or careless weighing done and random statements made by complainants.

Complaints have been received during the year of shortages on 2,295 cars of grain. The shortage on 643 of these was duly accounted for; on 298 the discrepancies complained of were less than 500 lbs. to the car; and on 737, the amounts of shortage were not stated. Deducting the number of shortages accounted for from the total reported, leaves 1,652 alleged shortages unaccounted for, or one shortage reported on every 182 carloads weighed.

The records of the year's work show that the Department tested 1,005 scales, both in Chicago and at country points, as follows:

752 hopper scales, of which 128 were found incorrect.

147 railroad track scales, of which 52 were found incorrect.

76 wagon scales, of which 43 were found incorrect.

30 smaller scales, of which 11 were found incorrect.

An arm of this service has been specially busy during the year in preventing the stealing of grain from cars in railroad yards, and in arresting and prosecuting grain thieves. The result of this vigilance is most gratifying. Its efforts in this line resulted in 113 arrests.

This Department, supervised by the Weighing Committee and conducted by the efficient and competent Grain Weighmaster of the Board, Mr. H. A. Foss, supplemented by the faithful and conscientious service of every one of its employes, has maintained its well-deserved reputation for accuracy, thoroughness and ability. It has contributed and still contributes in a marked degree to the expansion and high standing of Chicago as a pre-eminent primary grain market of the world.

CLEARING HOUSE OF THE BOARD OF TRADE OF THE CITY OF CHICAGO

The total clearances for the year amounted to \$91,232,308; balances, \$31,265,530. Clearances for the preceding year, \$78,539,952, and balances \$26,667,724. The total clearances for the year 1907 amounted to \$106,586,118 and balances, \$34,895,227. The total clearances for the year 1906, amounted to \$43,480,450, and balances \$16,784,093.

We can not too highly commend the courteous faithfulness of Mr. Samuel Powell, Manager of the Clearing House, who has most honorably filled this position for more than a quarter of a century.

GRAIN SAMPLING DEPARTMENT

There is probably no Department of the Board that sustains a more important relation to our grain market and indeed to the grain markets of the country, than this Department, under the management of the Grain Committee. It insures the furnishing of accurate samples of grain and contributes by most cordial co-operation with the State Grain Inspection Bureau, a uniform and reliable inspection of grain. The competent and faithful services of Robert P. Kettles, the Chief Grain Sampler of the Board, call for special mention in reviewing the work of the Board for the past year.

During the year it sampled 97,817 cars of grain and 13,446,872 bushels.

TRANSPORTATION DEPARTMENT

CHICAGO, January 4, 1910.

TO THE HONORABLE BOARD OF DIRECTORS,
Of the Board of Trade of the City of Chicago,
Chicago, Illinois.

Gentlemen:

The work of the Transportation Department for the past year has been conducted along the broad lines of its previous efforts in bringing about an equalized basis of rates and the removal of discriminative measures calculated to injure this market.

Gratifying results have attended the efforts of your Transportation Committee and substantial progress in securing needed changes has been attained.

Some of the more important results may be briefly mentioned.

Chicago Should Be a Rate Basing Point

In our Annual Report of a year ago we reverted to the importance and necessity of making Chicago a rate basing point and the desirability of securing specific rates into and out of this market in lieu of through rates with transit privileges. The unfavorable attitude of the Honorable Interstate Commerce Commission in reference to transit therein referred to has been confirmed in a recent ruling dealing with this subject and the necessity, therefore, of securing for this market specific rates is thus emphasized. It is, therefore, with the greatest gratification that the Transportation Committee announces that effective February 1st there will be

One Rate Basis On Grain and One Rate Basis On Grain Products

from Chicago to Trunk Line Territory, except one through tariff which temporarily is continued on oats and barley from Minneapolis with transit privileges at Chicago, the proportion applying easterly from Chicago of such through tariff being less than the specific rate basis above referred to. It is expected that in the no distant future this through tariff from Minneapolis will be cancelled and all rates on grain and grain products to Trunk Line Territory will then base on Chicago.

Through tariffs with transit privileges, however, from Illinois points via Chicago are continued to equalize the rates made via other routes around Chicago. And further than this:

The Use of Mississippi River Points for Basing Rates From Trans-Mississippi River Territory on Grain Destined to C. F. A. Territory Has Been Discontinued

and the rates hereafter will be made by specifics into and out of Chicago, thus confirming Chicago as a rate basing point on grain to both Trunk Line and C. F. A. Territory, except as above indicated.

When the work of making Chicago a rate basing point is completed as to both grain and grain products its value will become more and more apparent to the Trade, removing for all time to come the danger to the market from the circumscribed use of transit and putting us in the position where any changes in rates from other markets will automatically produce a like change in rates to or from Chicago.

Rates From Iowa and the Northwest and From Omaha to the Southeast

The equalized basis of rates to the Southeast for which we have been contending is not yet fully secured, but substantial progress has been made in this adjustment. Reparation claims which are now before the Interstate Commerce Commission will, when decided, enable this market to reach Southeastern Territory on parity of rates with other and competing markets. This work on the part of your Committee is of the

utmost importance in that it affords to Chicago a larger field of distribution not heretofore available.

Many other things have been accomplished for the benefit of this market, among which may be mentioned:

(a) The absorption of switching, transfer and terminal charges by the Chicago & Eastern Illinois and Illinois Central Railroads on grain destined to the Southeast and Mississippi Valley points.

(b) The publication of equalized rates from Minneapolis to Ohio River Crossings on grain via Chicago with transit privileges, thus equalizing the combination via Peoria.

(c) Some of the western roads did not comply with the ruling of the Commission in reference to the minimum weight applicable to the capacity of the car ordered when a car of greater capacity was supplied for the convenience of the carrier.

We induced the roads to adopt this rule and it is now uniform on all Western Lines.

(d) Arrangement by which bills of lading issued by eastbound and southern lines will bear but one date and that date to be the same as the receipt from which bill of lading is issued.

(e) Securing a 4 cent rate from Peoria and Pekin to Chicago, thus enabling our dealers to secure grain from elevators on the Illinois River when handled via boat.

(f) Securing the withdrawal of the embargo on hay, thus preventing the diversion of a large amount of business from this market.

Many other matters have received the attention of the Committee, but lack of space compels us to omit special mention.

Other problems are yet to be worked out of equal importance to the things that we have already accomplished, among which may be mentioned:

Ruling of the Interstate Commerce Commission in Reference to Transit

A ruling by the Interstate Commerce Commission in respect to transit, which, if literally applied would prove a serious injury to this market and millers throughout the country.

Through our efforts we have secured a hearing before the Commission to be held on January 14th, at Washington and with the consent of the Commission have induced the carriers to make no changes in their transit rules, pending such hearing.

This Board will be authoritatively represented before the Commission in Washington.

Rates on Wheat From Minneapolis

The discrimination against this market in reference to wheat rates from Minneapolis compared with rates on flour, has been brought to the

attention of the Commission through our petition of intervention in the so-called "Minneapolis Flour Case" and it is expected that a decision favorable to our contention will be rendered in the near future.

Rates on Ex-Lake Grain

We are still suffering from a discrimination as to rates on ex-lake grain and have arranged for a conference with the Executive Officers of the Trunk Lines looking to a re-adjustment of those rates as will afford us the advantage to which our location contiguous to water transportation entitles us.

Elevation Allowances

The matter of elevation allowances is before the United States Court on appeal from an order of the Commission and a judicial determination is expected in the near future.

In all the matters undertaken throughout the year it is especially gratifying to acknowledge the manner in which your Committee has co-operated with entire harmony in bringing about the solutions of the many problems before us. Much credit should be given to each member of the Committee for their unselfish devotion to the work of this department.

Respectfully submitted,

J. C. MURRAY,

Chairman of the Transportation Committee.

Mr. W. M. Hopkins, Manager of this Department, has been indefatigable in the discharge of his responsibilities and has brought about valuable results to the flour and grain trades of Chicago.

LEGAL DEPARTMENT

The year has not been an active one, so far as litigation is concerned. The two suits pending at the end of last year against the Board and others, involving the memberships of certain members, have been dismissed as to the Board of Trade. During the year no new suits of this character have been brought.

The suit commenced by the Board against the so-called National Board of Trade of Kansas City, to prevent the counterfeiting by the latter of your quotations for use in bucket-shops, has been dismissed. After that suit was started that organization went out of business and has since shown no disposition to resume. The object of the suit having been thus attained, the suit became no longer necessary.

The Federal Judge at Cincinnati has not as yet rendered his decision in the contempt case against the O'Dell Stock & Grain Company and those connected with it, although it was argued in March, 1907.

In the suit brought by the Missouri River millers before the Interstate Commerce Commission against certain railroads to compel them to reduce existing flour rates from the Missouri River to the seaboard,

in the defense of which this Board joined, a decision has been rendered by the Commission sustaining the position taken by this Board.

There is still pending a suit involving a controversy as to the ownership of a membership. This Board is a nominal party to this suit, but has no interest in it.

The institution of injunction suits against bucket-shops to prevent them from purloining the Board's quotations was resumed during the latter part of this year, and three suits of that character were instituted, one at St. Louis against the Merchants Stock & Grain Company, Francis J. Miner, and others, another at St. Louis against the Price Commission Company, and one in Chicago against the Capital Investment Company, Sidmon McHie, and others. In two of these temporary injunctions have been obtained, restraining the use of your quotations, against Merchants Stock & Grain Company, John F. Ryan, Francis J. Miner, Peter Holmes, Patrick A. Stephens, P. B. Burch, Percy Anderson, Charles S. Sparkman, Frank Mullen, Ralph McDonough, Joseph E. Martin, Clyde Pumphrey and Sidmon McHie; Capital Investment Company of Chicago, Richard I. Marr, Richard H. McHie, Frank C. Williams, Charles W. Bickell, Frank P. Manning, Harry Talcott, Frederick J. Holzapfel, Harry A. Campbell, J. C. Quinn, Bert Kendall, J. M. Gibson, James F. Southard, M. J. Mason, and John Lyons.

Thus there are but four suits pending, to which this Board is an interested party, the one at Cincinnati, and the three bucket-shop suits recently instituted.

THE CHIEF INSPECTOR OF GRAIN is hereby authorized to collect on all grain inspected under his direction as follows:

FOR IN-INSPECTION: 50 cents per car load; 10 cents per wagon or cart load; 50 cents per 1,000 bushels from boats; one-quarter of a cent per bushel from bags.

FOR OUT-INSPECTION: 50 cents per 1,000 bushels, and 10 cents per wagon load to teams.

NOTE—The inspection department shall, in no case, make a grade of grain above that of the poorest quality found in any lot of grain inspected, when it has evidently been plugged for the purpose of deception, or otherwise improperly loaded.

NOTE—Wheat which has been subjected to scouring, or clipping, or any process equivalent thereto, shall not be graded higher than No. 3.

NOTE—The department will, in addition to the grading of Spring Wheat, give dockage and grade if cleaned.

NOTE—The word "NEW" shall be inserted in each certificate of inspection of a newly harvested crop of oats until the fifteenth day of August; of rye, until the first day of September; of wheat, until the first day of November, and of barley, until the first day of November of each year.

This change shall be construed as establishing new grades for the times specified, to conform to the existing grades of grain in all particulars (except the distinctions hereby established between the new and the old crop), and shall apply to grain inspected from store for two months after the time respectively above specified.

NOTE—All inspectors shall make their reasons for grading grain, when necessary, fully known by notations on their records. The weight alone shall not determine the grade.

NOTE—All inspectors must ascertain the weight per measured bushel of each lot of wheat inspected by them and report the same in their records.

NOTE.—Prior to the year 1820 no official records of the arrival of alien passengers were kept. It is estimated, however, that the total number arriving in the United States from the foundation of the government to the year 1820 was 250,000.

Up to the year 1856 no record was kept of immigrants in distinction from the arrival of alien passengers

Of the number of immigrants arrived during the year ended June 30, 1909, there came from
 U'd Kingdom 71,826 Norway..... 13,627 China 1,943 Aus. Hungary. 170,191
 Germany..... 25,540 Italy 183,218 Russia 120,460 Sweden..... 14,474

The total number of European immigrants for the last fiscal year was 654,875.

Of the total number of immigrants for the year, 519,969 were males and 231,817 were females.

The year ended June 30, 1907, has been the year of the greatest immigration.

Owing to the absence of law for the collection of statistics in relation to immigrants by railroads, those from the British North American possessions and from Mexico were not included from July 1, 1885, to June 30 1895.

NOTE.—The statistics for 1870 and 1880 are derived from the United States census. The statistics for the remaining years are compiled from data collected and estimates made by Mr. Frederick E. Seward, editor of the Coal Trade Journal of New York City.
Some coal is mined in North Carolina, but no figures are furnished by producing interests. A few thousand tons were mined in Idaho during 1906, 1907, 1908 and 1909. Massachusetts appeared as a coal producer in 1908, there being 50 tons mined during the year.

NOTE.—Up to 1850 only the aggregate valuations in the several counties were reported to the State officers, and from 1852 to 1857, inclusive, a few counties returned only the aggregates; hence the details of real estate and personal property valuations are not complete for those years. In 1867 and 1868 the details of valuation are not entirely correct, owing to changes by the operation of the equalization law. Since 1868 the valuations are as equalized. The total valuations in each of the several years are correct and official.

The valuations for 1873 as equalized are largely in excess of any previous year. In 1874 some changes were made in the manner of equalizing the assessments, resulting in reducing all the valuations, especially those of railroad property.

The valuations for 1899 to 1908 inclusive are the one-fifth of the full fair cash valuations of property as determined by the Assessing officers, under the requirements of the Assessment Act of 1893. The valuation for 1909 is the one-third of the full fair cash valuations of property as determined by the Assessing offices, under the requirements of the Assessment Act of 1898, as amended by an Act approved June 12, 1909.

The State debt, as noted, represents it as it stood on the 1st of January in each of the several years to 1869; in 1869 and 1870, as it stood December 1; in 1871, as it stood December 31; from 1872 to 1879, as it stood December 1.

CHICAGO REAL ESTATE AND PERSONAL PROPERTY.

Assessed valuation of real and personal property in the City of Chicago, by Towns, for 1909.

Beginning with the year 1909, in accordance with an act passed by the State Legislature increasing the assessed valuation of property from one-fifth to one-third of the full value, the assessed valuation of property for tax purposes, herewith given, as assessed by the Board of Assessors, then reviewed by the Board of Review and finally equalized by the State Board of Equalization, is one-third of the assessed actual, or full value.

E. It is hereby provided that upon transactions specified in the foregoing paragraphs of this section which are made for the account of members of this Association, or for firms one at least of whose general partners is a member of this Association, or for corporations entitled under Section 8 of this Rule to members' rates, three-fourths of the foregoing rates shall be the minimum rates charged.

F. Whenever members of this Association, acting as principals or agents, shall have made a purchase of any of the property mentioned in this section, to arrive, or in transit, such members shall notify in writing, the party from whom such purchase was made, of the price and terms of such purchase on the same day upon which the transaction takes place.

These requirements shall apply only to shipments from country points, either to Chicago or to other markets, if purchased in Chicago market, whether such property is to be shipped or is in transit.

BUYING OR SELLING VESSEL LOTS.

SEC. 6. A. The following rates of commission, being just and reasonable, are hereby established for receiving and selling, or for buying and shipping the following described property by vessels:

On wheat, rye, barley or flaxseed.....	$\frac{1}{2}$ cent per bushel
On corn or oats.....	$\frac{1}{4}$ " " "

These shall be the minimum rates for both members and non-members.

ADDITIONAL CHARGES.

SEC. 7. A. In addition to all the rates of commission prescribed by this rule, there shall be charged all legitimate expenses incurred in handling and caring for the property involved, including storage, insurance, inspection, weighing. Cost of sampling shall not be considered a charge against the property.

CORPORATIONS.

SEC. 8. A. Any corporation having for one of its executive officers and stockholders a member of this Board, may submit to the Board of Directors, or a committee appointed for such purpose, a full disclosure of the relations of such member to such corporation, and if such member shall, upon investigation, be found to be a real bona fide and substantial executive officer and stockholder of such corporation, and that such relation is not created for the sole purpose of obtaining members' rates, such corporation shall be thereafter, and so long as such member shall remain such officer and stockholder, entitled to members' rates provided in this rule; *provided*, that for the purpose of this rule, not more than one corporation can be represented by the same member of this Association as its executive officer.

Whenever any such corporation shall be so found entitled to members' rates, it shall, whenever requested by the Board of Directors, or such committee, make a full disclosure of the then existing relations of such member to such corporation. If it shall refuse so to do, its right to members' rates shall thereupon cease.

B. On all transactions for the account of any officer, agent, employe or stockholder of any such corporation, not a member of this Association, such corporation must exact non-members' rates of commissions.

C. No member can be deemed the representative of two corporations, or two firms, or a firm and a corporation, for the purpose of giving either firm or corporation members' rates under this rule.

CONSTRUCTIONS.

SEC. 9. A. On all transactions where the purchase or sale of cash grain is made contingent on the price ruling for future delivery, and where the purchase or sale of the future delivery is at once accomplished, fixing by such transaction the value of the cash grain so bought or sold, it shall be construed that the purchase or sale of the future delivery shall be a part of the cash transaction. Should the purchase or sale of grain for future delivery upon which the cash transaction is based be held subject to the convenience or subject to the orders of the parties with whom such transaction is made, then all such business for future delivery shall be subject to the regular rates of commission as prescribed in this rule.

B. In no case shall the aggregate amount of brokerage allowed on any transaction be such that the net commission to members on such transaction shall be less than the minimum rates prescribed in Paragraph H, Section 4 of this rule, for clearing trades for members.

C. Members cannot abate or divide with other members the rates prescribed in Paragraph H, Section 4 of this rule, for clearing.

D. A firm whose only member of the Association is a special partner in such firm is not entitled to members' rates.

E. A firm or a corporation shall charge regular rates of commission on all transactions in which only a part of such firm or corporation appears as a principal.

F. Any member who, or whose firm or corporation, shall be convicted by the Board of Directors of a violation of the provisions of this rule, or of any evasion thereof by making rebates in prices, by making any contract or observing any contract already made, by furnishing a membership in this Exchange, by giving any bonus, gift, donation or otherwise, or shall purchase or offer to purchase any grain, seeds, provisions or other commodities consigned to him, them, or it, for sale, or by rendering any other service or concession whatsoever, with the intent to evade in any way directly or indirectly the regular rates of commission or brokerage established by this rule, shall be expelled from this Association. Free telegraphic communication, however, shall not be construed as a violation of this rule.

G. The Board of Directors is authorized to offer a reward of not more than twenty-five hundred dollars to any person who shall furnish evidence that does convict any member, firm or corporation of a violation of this rule.

On any alleged violation by a member of this Association of the provisions of this rule which shall be brought to the attention of the President of the Board by creditable report, it shall be the duty of the President to cause said member to be summoned before the Board of Directors and if the party shall be found guilty of such violation of the rule, he shall be suspended for not less than one month nor more than one year, and for a second violation he shall be expelled.

SEC. 3. All contracts and offers to contract for grain for future delivery shall be at one figure of price, having as the multiple of price one-eighth of a cent per bushel; provided, however, that offers and contracts may be made to include one-half the total amount of each contract at any given price, and the remainder of said contract at a price one-eighth of one cent per bushel higher or lower than the other moiety and not otherwise; the same principle to apply on transactions for the future delivery of provisions; and every infraction of this rule shall be deemed misconduct and punishable by suspension at the discretion of the Board of Directors.

It is hereby provided that such deposits shall not be made with any bank or banks to which the party calling for the said security shall expressly object at the time of making such "call;" but in such case the deposit shall be made with some duly authorized bank not thus objected to, or with the Treasurer of the Association, as the depositor shall elect.

SEC. 2. All banks which may be appointed to act as depositories for securities, shall be required to have one or more of their executive officers, members of this Board, who shall be held amenable to the Rules of said Board in matters of dispute arising from any transactions on the Board of Trade of the City of Chicago, between the banks they represent and any of the members of said Board of Trade, and shall execute and file with the Secretary of the Association a good and sufficient bond, with sureties, to be approved by the Board of Directors, for the proper disposal of the said deposits, in accordance with the provisions of the Rules, Regulations and By-Laws of the Association. SEC. 4. The party depositing security shall, within one hour from the time such deposit shall be called, deposit with the Clearing House of the Board of Trade of the City of Chicago, or with the party calling for such deposit, the duplicate certificate for the same, in due form, as provided for in Section 2 of this Rule.

Failure to deposit.

Contracts may be closed.

SEC. 5. Should any party called upon, as herein provided for, fail to deposit the security called, within the next banking hour thereafter, the party making such call shall have the right, if he be the seller, to resell the property for account of the delinquent, such resale to be for the same delivery as was named in the original contract; if he be the buyer he shall have the right to repurchase the property for account of the delinquent, deliverable at the time named in the original purchase; in either case he shall at once communicate to the delinquent the action he has elected to take, and all losses or damages on such defaulted contract shall be at once due and shall be payable through the Clearing House the same as though said contract had fully matured. The party so calling may, however, elect to permit

the contract to stand, in which case no notice to that effect shall be necessary to the delinquent. All notices for the call of deposits as security, or of the closing of contracts under this Rule, may be served on the party called, either in person or by leaving a written notice at his place of business, or may be served in person upon his authorized representative, or upon any clerk representing the party on 'Change; and in case the party called upon shall not be known to have a regular place of business, a written notice left in the office of the Secretary of the Board shall be deemed sufficient.

SEC. 6. Upon the fulfillment or settlement of any contract, or upon the closing of any contract under the provisions of Section 5 of this Rule, deposits upon which have been made, and when the full adjustment of all differences relating to the same shall have been effected, the deposits shall thereupon be payable to the party depositing the same; and the joint indorsement of both parties upon the certificate shall be a sufficient authority to the party holding the deposit to pay the same to the holder of the certificate; or in case of a failure between the contracting parties to adjust and settle their respective claims upon the deposit within three (3) business days after the maturity of all contracts upon which the deposit is applicable, the matter in dispute shall, upon the application of either party to such contracts, be submitted to a select committee of three disinterested persons, members of the Association, to be appointed by the President, which committee shall, without unnecessary delay, summon the parties before them, and hear such evidence under oath as either may wish to submit touching their claims to the deposit, and shall by a majority vote decide, and report to the President of the Board, in writing, in what manner and to whom the deposit is payable, either wholly or in part, whereupon the President shall indorse on either the original or duplicate certificate an order for the payment of such deposits in accordance with the decision of said committee, and such order shall be a sufficient warrant to the party holding the deposit to pay the same in accordance with such order. In case any member neglects or refuses to indorse a certificate of deposit to the party entitled to receive the money thereupon when all contracts upon which the deposit is applicable are settled, and all money due upon such contracts has been paid, he shall be liable to a penalty of one per cent. per day on the amount of such certificates, for every day such refusal or neglect is continued; and for refusal to promptly pay such penalty, the party may, upon due complaint, be suspended from all privileges of the Board until the same is paid. In case it should occur that by reason of changes in the market, or of delivery upon, or the settlement of a portion of the contracts upon which security has been deposited and to which such security is properly applicable under this Rule, that a larger sum remains on deposit than is contemplated by Section 1 of this Rule upon then existing unadjusted contracts between the parties, and either party to such contract should refuse to release such excess of deposit, the President of the Board is authorized, upon a representation of the facts and admission or proof that such excess ought to be released, to order such release

SEC. 7. In determining the value of property under this Rule, its value in other markets, or for manufacturing or consumptive purposes in this market, together with such other facts as may justly enter in the determination of its value, shall be considered irrespective of any fictitious price it may at the time be selling for in this market. Such value, for the purposes of this Rule, in case of disagreement, shall be determined by the Board of Directors, and communicated to the parties in interest through the President or Secretary.

RULE XXI.

REGULAR DELIVERIES.

Tender of
warehouse
receipts.

SECTION 1. All deliveries upon contracts for grain or flax seed, unless otherwise expressly provided, shall be made by tender of regular warehouse receipts, which receipts shall have been registered by an officer duly appointed for that purpose. All such warehouse receipts shall be made to run five days from date of delivery on regular or customary storage charges, which regular or customary charges shall follow such warehouse receipts and be chargeable upon the property covered by the same, and shall be issued by such houses as have complied with the Rules of the Board of Trade and the Regulations and Requirements of the Board of Directors, and have been declared regular warehouses for the storage of grain or flax seed by said Board of Directors; and it shall be the duty of the Board of Directors, prior to the first day of July in each year, to inspect all warehouses, the proprietors or managers of which shall apply to have their receipts declared regular for delivery on contracts under the Rules of the Board of Trade, and no warehouse shall be declared a regular warehouse unless it is conveniently approachable by vessels of ordinary draft and has customary shipping facilities, and unless the storage rates on all grain or flax seed in such warehouse in bulk and in good condition, shall not be in excess of three-quarters ($\frac{3}{4}$) of one cent per bushel, for the first ten days or part thereof, and one-fiftieth ($\frac{1}{50}$) of one cent per bushel for each additional day thereafter until from and after January 1st, 1904, when the additional daily rate of storage shall not exceed one-fortieth ($\frac{1}{40}$) of one cent per bushel so long as such grain or flax seed remains in good condition; and unless the proprietors or managers of such warehouse are in good financial standing and credit, and are carrying on and intend to continue to carry on the legitimate business of public warehousemen under the laws of the State of Illinois and in accordance with the Rules of the Board of Trade of the City of Chicago and the Regulations and Requirements of the Board of Directors and until the proprietors or managers of such warehouse shall file a bond with sufficient sureties in such sum

and subject to such conditions as may be deemed necessary by the Board of Directors, under the Rules of the Board of Trade and the Regulations and Requirements of the Board of Directors in reference to warehouses.

And furthermore, the proprietors or managers of such warehouse shall be required to sell their regular contract grades of grain or flax seed in the Chicago market only, and shall not ship any grain from any regular warehouse, of which they are proprietors or managers, except those grades which are denominated and understood to be "off grades"; *provided*, however, that the Board of Directors of the Board of Trade may, upon application, grant to such elevator proprietors or managers the privilege of shipping such quantity of grain from their elevators as will sufficiently relieve such elevators from being overloaded, or as will maintain the condition of such grain; and furthermore, the proprietors or managers of such warehouse shall be prohibited from buying grain at any non-competing points.

Shipments by proprietors—only "off grades."

Whenever application shall be made by the proprietors or managers of any warehouse to have the same declared a regular warehouse for the storage of grain and flax seed under the provisions of this Rule (except in cases of renewal on the first day of July in each year, as hereinbefore provided) any grain or flax seed that may be contained in said warehouse at the time of such application, shall be required to be removed from said warehouse, when after it shall have been graded and inspected according to its quality and condition then existing by the duly constituted authorities, such grain or flax seed may then again be received into said warehouse and receipts issued therefor shall be registered and dated upon the day when such grain or flax seed is again actually received into said warehouse.

Requirement for removal of grain from warehouses applied to be regular.

The chief inspector of grain of the State of Illinois may, upon request of the Board of Directors of the Board of Trade, appoint a supervising inspector who shall so supervise the storage and distribution of grain and of flax seed in such warehouse that no discrimination or selection can be made in the quality or grade of grain or flax seed in the delivery of such grain or flax seed.

Supervising inspector.

Warehouse receipts issued by warehouses so declared regular by the Board of Directors shall be regular for delivery on contracts under the Rules of the Board of Trade so long as the said warehouse shall continue to be a regular warehouse, but the term for which any warehouse is declared a regular warehouse to issue such receipts shall be limited to and expire on the first day of July in each year. No receipts issued on grain received in any warehouse shall be regular for delivery under the Rules of the Board of Trade after that date unless the warehouse upon which it has been issued has again been declared a regular warehouse by the Board of Directors; *provided*, however, that receipts issued before the first day of July by warehouses which have been regular warehouses during the preceding year, but which have not been declared regular for the succeeding year, shall be regular for delivery upon such contracts for six months after the first day of July; but nothing contained herein shall prevent the Board of Directors from declaring any warehouse, or the receipts thereof, irregular at

any time for violation or non-compliance with the laws of the State of Illinois or any of the Rules of the Board of Trade or of the Regulations and Requirements of the Board of Directors.

Emergency clause.

Provided, that the Board of Directors shall have power, when in their judgment an emergency exists requiring more storage room than can be supplied by the regular elevator warehouses, to declare any storehouses, vessels, or places suitable for the storage of grain or flax seed within the city limits—wherein the cost of delivery to vessels or railroad cars shall not be greater than such as is made by the regular elevators for the same service—to be regular places for the storage of grain deliverable under the Rules of the Board of Trade.

Limitation of aggregate capacity of warehouses made regular under emergency.

And *provided further*, that in case it shall happen that at any time there shall be no warehouses which shall be regular warehouses for the storage of grain and flax seed, then the Board of Directors may declare any warehouses suitable for the storage of grain or flax seed, whose aggregate capacity shall not exceed twenty-five million (25,000,000) bushels, regular warehouses for the storage of grain or flax seed, upon such terms and for such period as the Board of Directors in its discretion may deem necessary or proper, and the warehouse receipts issued by warehouses so declared regular under this proviso, shall be regular for delivery on contracts under the Rules of the Board of Trade, in the same manner as if issued by warehouses declared regular under the foregoing provisions of this section in regard to declaring warehouses regular for the term ending on the first day of July in each year.

All complaints against elevator proprietors under this section shall be heard and decided by the Board of Directors of the Board of Trade of the City of Chicago.

Deliveries, when and where made.

SEC. 2. All deliveries of grain and flax seed in 1,000 and 5,000 bushel lots; of mess pork, lard or s. p. hams, in 50 and 250 package lots; or of meats in lots of 25,000 and 50,000 lbs., in store, on time contracts, shall be made between 9:30 A. M. and 11:00 o'clock A. M., at the office of the clearing member who has the property bought, or shall be made in the Exchange Hall, or in such other place as may be designated by the Board of Directors between the hours of 1:30 and 2:00 o'clock P. M., except as hereinafter provided. All such

deliveries shall be made by a notice in writing, which notice shall state on its face the place of business of its issuer. Such notice shall state in detail the warehouse receipts proposed to be delivered, and in the case of provisions in packages, or lard, the packer's brand, and the contract price on which delivery is proposed to be made, also the net cash value (deducting extra storage) of said property at the market price. Twice each day at stated hours, it shall be the duty of the Secretary to post or cause to be posted, in a suitable place, the market price of such grain or provisions as are deliverable on time contracts. The first price posted shall be applicable to deliveries between 9:30 o'clock and 11:00 o'clock A. M. The second price posted shall be applicable to deliveries between 1:30 and 2:00 o'clock P. M. Such delivery notice may be passed from one purchaser to another before 11:00 o'clock A. M., or before 2:00 o'clock P. M., as the

Description of procedure.

case may be, by indorsement thereon by the seller, of the name of the party to whom it is to be delivered, together with the contract price at which the property is sold, and also the time at which the delivery is made. In the case of deliveries made outside of the buyer's office, as provided above, the first delivery of such notice shall be made before 1:35 o'clock P. M., and any party holding such notice longer than five minutes as shown by the indorsement on same of the time of the previous delivery, shall not be permitted to deliver it. Any person indorsing upon said notices any fictitious name or the name of any person, firm or corporation other than that of the person, firm or corporation to whom he tenders the notice upon a bona fide sale of the property mentioned therein, actually made by himself, or the firm, or the corporation he represents, or upon the written order of another member, firm, or corporation on whose behalf he makes such tender, or who shall make any alteration therein, or any substitution of property other than that originally named in the notice by the original issuer thereof, shall be deemed guilty of gross fraud, and, if a member, he shall be suspended or expelled, at the discretion of the Board of Directors; and if not a member, such person shall be permanently excluded from the rooms of the Association. All delivery notices issued under this rule shall be consecutively numbered by the parties issuing them. Notices of readiness to deliver property as herein provided, and all subsequent transfers of such notices, shall be deemed and held to be a valid and sufficient tender of property, on time contracts, under the Rules of this Board of Trade, provided the property is actually delivered, or is shown to have been ready for delivery, in the manner and upon the terms herein provided. It shall be the duty of the party regularly holding such notice at 2:00 o'clock P. M., to present the same at the office of the issuer before 2:30 o'clock P. M., and of the party regularly holding such notice at 11:00 o'clock A. M. to present the same at the office of its issuer before 11:30 o'clock A. M. of the same day, together with a certified check on some Chicago bank in good standing, or other satisfactory payment for the net amount due for the property represented by any or all of said notices, at the market price; and upon tendering said notice, or notices, with payment, at the office of its issuer, the holder of said notice or notices, shall be entitled to receive the property represented by same. All differences due from, or to parties to such delivery shall be paid upon the basis of a full delivery, and no more, and each purchaser receiving notice of delivery, shall be responsible to the seller from whom the notice was received, for the difference between the price actually paid for the property and their contract price. In cases where the seller's contract price is less than the price actually paid for the property, such seller shall be responsible to the purchaser to whom he delivered the notice, for the difference. All such differences shall be due and payable immediately upon the delivery and payment for the actual property; it being the duty of each person transferring the delivery notice to ascertain what price was actually paid for the property.

On the first business day of each month all deliveries on time contracts of the kinds of property mentioned in this section, if delivered

before 11:00 o'clock A. M., shall be delivered in the Exchange Hall, or such other place as may be designated by the Board of Directors, between the hours of 8:30 and 9:15 o'clock A. M., in the same manner and under the same regulations, except as hereinafter provided, as is specified for similar deliveries after 11:00 o'clock A. M. The delivery

M., except that it shall state the net value (deducting extra storage) of the property at the closing market price on the last business day of the previous month, for the delivery on which the property is tendered, which price shall be posted in a suitable place immediately after the close of the market. The first delivery of the notice shall be not later than 8:35 o'clock A. M., and it shall be the duty of the party regularly holding such notice at 9:15 o'clock A. M. to present the same at the office of its issuer before 11:00 o'clock A. M. of the same day, together with a certified check on some Chicago bank, in good standing, or other satisfactory payment, for the net amount due for the property represented by said notice, as hereinbefore provided, and upon tendering said notice with payment at the office of the issuer, the holder of such notice shall be entitled to receive the property represented by the same.

Mode of settlement. All differences between the price paid for the property and any contract prices involved in its delivery, due to or from parties to such delivery, shall be adjusted and paid in the same manner and with the same liabilities as in the case of delivery made under this section between 1:30 and 2:00 o'clock P. M. In case property represented by either of the delivery notices mentioned in this section is not called and paid for as herein provided, it may be held by the issuer of the notice, for and at the expense for storage, interest, insurance and other risk of the party whom it may concern, until 12:00 o'clock M. of the next business day, at which time it shall be sold in open market for account of whom it may concern; or it may be sold, if the notice was delivered before 9:15 o'clock A. M., or before 11:00 o'clock A. M., at any time between 12:30 o'clock P. M. of that day and 12:00 o'clock M. of the next business day. If the notice was delivered between 1:30 o'clock P. M. and 2:00 o'clock P. M., it may be sold at any time between the beginning of trading hours and 12:00 o'clock M. of the next business day. The party holding the property shall, however,

Flour classed as sound shall be strictly sound, free from any and every defect or fault causing either smell or taste.

REGULATION III.

FLOUR TO INSPECT AS UNSOUND.

Unsound.

All flour not strictly sound, whether the unsoundness be derived from the condition of the grain from which it was manufactured, or has originated in the flour, shall be classed as unsound or slightly unsound, as its condition may be.

Certificate of inspection shall be issued by the Inspector in strict accordance with the inspection of every lot examined by him. No separate certificate shall be issued by the Inspector for two or more

parts of any one lot of flour inspected by him, a part of which is sound and a part unsound, or when it inspects two or more grades. When flour is inspected by sample, the certificate shall mention its condition, as well as its relation to the sample. When flour is unsound the Inspector shall state in the certificate the character of the unsoundness, as *musty, hard sour, soft sour, unsound, or slightly unsound*, and the number of packages of each description, and also, when practicable, the number of packages that may be so stained or out of condition as to depreciate the market value of the flour. In case the flour has been overhauled and cleaned on account of having been wet, and the Inspector shall deem such overhauling in any way damaging to the market value of the flour, he shall note in his certificate "wet and cleaned." Flour in round-hoop barrels and jute sacks shall, in absence of any special agreement, be considered as regular in deliveries. If flour is in flat-hooped barrels, or cotton sacks, the Inspector shall so note in his certificate, also on sample furnished to the party ordering the inspection.

The Inspector shall satisfy himself in regard to weights, and in case he deems it necessary to strip some of the flour, he shall strip five barrels from each lot, and shall be entitled to 15 cents for each barrel so stripped; if it proves to be short in weight, the charge for stripping to be paid by the seller. All packages of flour which may be found largely deficient in weight, from bad order or any other cause, shall not enter into the average, but their weight shall be separately ascertained and certified to by the Inspector. When flour is sold in sacks, the gross weight shall be considered the actual weight. In case of short weight, the buyer shall be entitled to 1 cent per pound for freight. It shall be the further duty of the Inspector to ascertain the stock of flour in Chicago on the first day of each month, and to report the same to the Secretary of the Association, to be by him posted upon the bulletin of the Exchange Room. In taking the account of stock there shall be included only the amount in the several freight depots, the public warehouses, and the places of storage by receivers, and in the city mills. No change shall be made in these regulations or recommendations by the Board of Directors before submitting the same to a meeting, properly called, of the members of the Board of Trade that are interested in the flour trade, in which ten shall constitute a quorum. Repeal or amendment.

RECOMMENDATIONS.

I.

The Committee on Flour Inspection recommend to millers and shippers of flour the following requirements of standard sacks: Flour in sacks, requirements.

NO. 140—JUTE EXPORT SACKS

Shall be from the best material, double stitched, not using less than an equivalent to 40x49 inch mangled or craped finished material, weighing not less than 12 ounces per yard of 40 inches in width, or 15 ounces for the complete bag. If from starched or sized material, the complete bag should not weigh less than 16 ounces.

NO. 280—JUTE EXPORT SACKS

Shall be from the best material, double stitched, not using less than an equivalent to 50x63 inch mangled or craped finished material, weighing not less than 15 ounces per yard of 50 inches in width, or 25 ounces for the complete bag. If from starched or sized material, the complete bag should not weigh less than 26½ ounces.

Seamless jute sacks must be from same weight and quality of material, etc., but require 4 per cent less material, and may weigh 4 per cent less.

140 POUND COTTON EXPORT SACKS

Shall be double stitched, best Twill Drill, Osnaburg or Duck, free from starch or sizing, using of Twill or Drill not less than an equivalent to 40x47 inches, or, if Osnaburg or Duck, not less than 37½x51½ inch material, the complete bag weighing not less than 9½ ounces.

II.

How to close sacks.

The Committee on Flour Inspection also recommend to millers and shippers of flour in sacks to be inspected in this market, that in closing the sack the mouth edge of the sack be turned in without rolling, and sewed with a single seam, the stitches to be at least $1\frac{1}{2}$ inches apart. (See Fig. 1.) This will allow the Inspector to insert the trier between the stitches without making holes in the cloth.

FIG. 1.

III.

How to load sacks.

The Committee on Flour Inspection further recommend to millers, shippers of flour, and railway agents, that in loading cars the following instructions be observed:

One hundred and forty pound sacks should be piled in two tiers lengthwise of the car, the mouths of sacks placed toward center of car (see Fig. 2), leaving the space between the tiers of sacks in the center of the car free and clear for the convenience of the Inspector.

The sacks of flour should be piled as follows: The sacks on the floor to be placed four inches from the side walls of car, and sacks so piled as to gradually incline to the walls of the car until the top rows press strongly against the said walls, as shown in Fig. 2.

FIG. 2.

Unless these recommendations be complied with the Inspector will charge for the labor necessary to put the flour in proper position for inspection.

RULES

Governing the Inspection of Grain

IN THE STATE OF ILLINOIS

IN FORCE ON AND AFTER NOVEMBER 19, 1909.

The following are the rules adopted by the Board of Railroad and Warehouse Commissioners, establishing a proper number and standard of grades for the Inspection of Grain, as revised by them; the same to take effect on and after the 19th day of November, 1909, in lieu of all rules on the same subject heretofore existing.

ORVILLE F. BERRY, Chairman, Carthage, Ill.

BERNARD A. ECKHART, Chicago, Ill.

JAMES A. WILLOUGHBY, Belleville, Ill.

Commissioners.

EXTRACTS FROM THE RULES

PREScribed BY THE BOARD OF RAILROAD AND WAREHOUSE COMMISSIONERS FOR THE ADMINISTRATION OF THE DEPARTMENT OF GRAIN INSPECTION AND WAREHOUSE REGISTRATION IN THE STATE OF ILLINOIS, AND IN FORCE FROM AND AFTER NOVEMBER 19, 1909.

ATTEMPTS AT FRAUD OR INTERFERENCE

All persons employed in the inspection of grain shall promptly report to the Chief Inspector in writing all attempts to defraud the system of grain inspection established by law, and all instances where warehousemen shall deliver or attempt to deliver grain of a lower grade than that called for by the warehouse receipt.

They shall also, in the same manner, report all attempts of receivers or shippers of grain, or any other person interested therein, to instruct or in any improper way to influence the action or opinion of any Inspector in the discharge of his duty; and the Chief Inspector shall report all such cases to the Commission.

RULES

All grain in store in any warehouse of Class "A" at the time any amendment to the established rules of inspection (affecting such grain) may hereafter go into effect shall be inspected out (in satisfaction of warehouse receipts dated prior to that time only) in accordance with the rules as they stood prior to such amendment.

No claim for damages on account of error in the inspection of any lot of grain (except grain inspected from Public Warehouses in accordance with law) will be entertained or allowed by the Board of Railroad and Warehouse Commissioners, unless complaint of such inspection shall be made to the Chief Inspector before the grain in question shall be removed from the car in which it is inspected, or before it shall leave the jurisdiction of the department.

Grain transferred from the car in which it was inspected to another must be inspected after transfer to entitle the owner to have any claim arising thereunder considered by the Board of Railroad and Warehouse Commissioners.

RULE 1.

Failure to report for duty unless properly excused will be deemed a surrender of the position held by the absentee and no compensation will be allowed for days so absent.

RULE 2.

Deputy Inspectors, Chief Samplers and Helpers are especially instructed to use all due care in cases where it becomes necessary to remove boards to obtain ingress into cars in order to properly inspect or sample the grain in such cars, to replace all such boards removed in such a manner as to prevent leakage or waste of grain from cars. It will be the duty of all inspectors and Chief Samplers to make a record of defective and leaky condition of cars and grain doors and to report the same to the Chief Grain Inspector on blanks especially prepared, showing the location of leakage and such other information as would be of service to the receiver and the shipper of grain.

RULE 3.

EARLIER HOURS.

When the receipts are large, and the interests of the trade require an earlier inspection, all Deputy Inspectors, Chief Samplers and Helpers assigned to duty on the track will begin work at as early an hour as practicable.

RULE 4.

EVENING WORK.

Inspectors stationed at elevators will, when necessary to complete the cargo or shipment upon which they may be engaged, remain on duty after regular hours and as late in the evening as they can see to inspect grain safely. Compensation for such services is provided in Rules 13 and 14 of the Railroad and Warehouse Commission.

RULE 5.

WET WEATHER AND DARKNESS.

No inspector stationed at an elevator is authorized to inspect out of store after dark or in wet weather, except on receipt, personally or through the office of the Chief Inspector, of an order written upon the printed blanks furnished by the Department, filled and signed by the owner of the grain or his authorized agent, relieving such Inspector of all responsibility for damage which may be caused by such wet

weather, or loss by such errors as are liable to occur by reason of darkness; but in every case the Inspector must be personally present when the grain is actually delivered on board, making his report of the inspection after such actual delivery.

NOTICE.

All matters pertaining to the inspection of grain should be taken up with the Chief Inspector of Grain.

In case of unsatisfactory inspection, write or wire immediately. Grain cannot be re-inspected after it has been unloaded and the identity of it lost.

W. SCOTT COWEN,
Chief Inspector of Grain.

They shall be appointed on recommendation of the Grain Committee. Their salaries shall be paid by the State Grain Department with money furnished if necessary by the Board of Trade. Seventeenth. In cases where it is necessary for the Grain or Sampling Committee to take the question of moisture into account, rendering a chemical analysis necessary, this shall be made promptly.

Eighteenth. Nothing in the above shall be understood as giving the Grain Committee any privileges relative to the examination of samples or the knowledge of their identity other than those enjoyed by the public, excepting when complaint is made to them under the provisions of the above regulations, or when an appeal is taken as is provided in Section 18 of Rule 22, 2nd paragraph, in which case the examination shall be made at such time and place and after such notification as will give all parties at interest an opportunity of being present.

Nineteenth. In case it should not be feasible to obtain samples of track arrivals in the manner above outlined, owing to the volume of grain coming in, an arrangement may be made with Receivers' agents to work in conjunction with Inspectors to take an extra sample for file in the Chief Inspector's office as above outlined.

REGULATIONS

For the Weighing of Grain

Under and by virtue of the provisions of Section 2, Rule IV, of the Rules of the Board of Trade of the City of Chicago, enacted in pursuance of Section 10 of the Act to Incorporate the Board of Trade of the City of Chicago, the following regulations are adopted by the Directors of the said Board of Trade of the City of Chicago, for the guidance and information of the Weighing Department and the members of this Association.

REGULATION 1.

Received or transferred grain shall not be cleaned or blown before weighing, nor shall it be subjected to such handling as will cause loss in weight. This prohibition shall also apply to shipments after weighing.

REGULATION 2.

No dockage from actual weights shall be allowed on in-coming or out-going grain, except when unusual dirt or foreign matter is inseparably mixed with the grain, in which case it shall be the duty of the weighmaster or his deputy to determine the amount of unusual dirt or foreign matter, and to weigh the entire contents of the car. All allowances for unusual dirt or foreign matter shall appear on the face of certificate issued for such cars.

REGULATION 3.

All cars when unloaded must be thoroughly swept and cleaned, except in cases where cars contain foreign matter unsuitable for mixing with grain. Then it shall be the duty of the Weighmaster or his deputy to determine the amount of grain and foreign matter to be left in the car. This amount shall be stated on the certificate of weights for each car, but such amount shall not be included in the net weight as shown by certificate.

REGULATION 4.

If hopper scales are used in determining the amount of grain a car contains, it shall be the duty of the elevator operators unloading such car to deliver to the scales the entire contents of said car except where cars contain unusual dirt or foreign matter not covered by Reg. 3, because not suitable for handling by elevator.

It shall be the additional duty of said elevator operator to clean thoroughly the unloading pits and the floor adjacent to such pits of any of the contents of said car that may have lodged there and deliver such contents to the scale to be weighed and credited to said car.

REGULATION 5.

The contents of each car shall be weighed in as few drafts as the scale in use will permit.

REGULATION 6.

The Weighmaster and his deputies shall be allowed to handle the scale beams in the performance of their duties.

REGULATION 7.

Certificates of weight shall bear the date of weighing, and when issued for cars that have been loaded with grain which, for any reason, are subsequently returned to the loading elevator and wholly or partly unloaded, shall promptly be returned to the weighing department by the member, firm or corporation receiving such certificates.

REGULATION 8.

No certificates of weights shall be issued on grain unloaded or transferred en route unless they are applied for within a reasonable time after cars are weighed, and before they have had time to arrive at their destination.

REGULATION 9.

A straight transfer must consist of the transferring of grain from one car to another without its identity being lost. If transferred through an elevator, the grain must go direct from the western or unloaded car to the scale and from the scale direct to the eastern, or car to be loaded without going into or through any house bins.

REGULATION 10.

All cars that are to be loaded with grain shall be in a suitable condition to carry such grain safely. In case cars are loaded that, in the judgment of the Weighmaster or his deputies, are not in proper condition to carry grain safely, the parties loading such cars shall at once be notified, and a statement of the condition of the car shall appear on the face of the certificate of weight issued for such cars.

REGULATION 11.

The Weighmaster in regulating the details of his office and the service of employes may, with the consent of the Weighing Committee, make such regulations as may be requisite or desirable in order to secure correct weights.

REGULATION 12.

Any member, firm or corporation of this Association receiving weight certificates not belonging to them shall return promptly such certificates to the Weighing Department, in order to facilitate delivery to the rightful owner.

REGULATIONS

— GOVERNING THE —

Adopted by the Board of Directors

"Receivers' Agents" shall be understood to mean persons employed to sample grain and seeds upon the recommendation of the Other Inspection Committee, under the provisions of Sections 1, 2 and 3 of Rule IV of the Rules of the Board of Trade of the City of Chicago.

REGULATION 1. REG. 3. In case of disputed claims presented against "Receivers' Agents," the justness and correctness of such claims shall be determined by the Other Inspection Committee.
